ILE Glareless

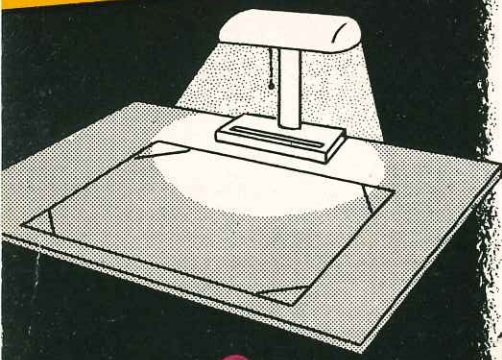

POINT FOR POINT

Desk Lights

WITH ANY OTHER LIGHT

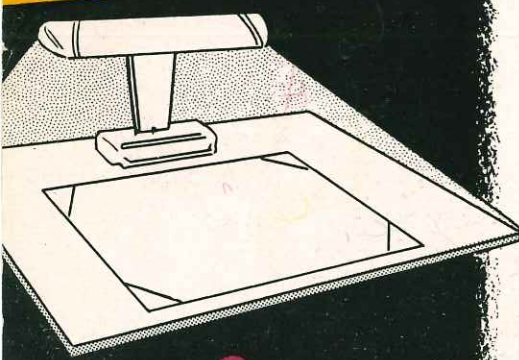

THE OLD WAY

Light emanating from a restricted incandescent source radiates in all directions and diminishes rapidly in illuminating power as it spreads. Only concentration by reflection upon a small circular or elliptical area gives sufficient brilliance in the reading and working plane to provide lighting required for reading fine print, examination of close pattern, drawing, needle-work, etc. Such concentration by reflection and re-reflection causes fatiguing, eyestraining glare.

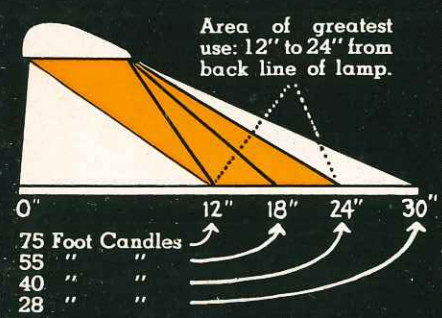

THE I.L.C. MODERN WAY

The generation of light of daylight quality in a long fluorescent cylinder and its diffusion from the smooth white surface of the long I.L.C. parabolic curved reflector, floods every inch of a large rectangular plane of desk-top size with soft, pleasant, glareless light, that permits closest application and strainless sight on the most exacting work.

Here's what the Lightmeter shows on I.L.C. No. 6300 and 6301

40 to 75 Foot Candles provide ample light for any sight requirement.

In offices and homes everywhere there is an insistent demand for a well-built, serviceable desk lamp that can provide all the desirable features of efficient, economical, fluorescent, daylight color quality lighting, at popular prices. In I.L.C. Glareless Fluorescent Desk Lamps, we offer you the last word in modern scientific lighting at prices that place these matchless lighting units within the reach of all.

THE LAST WORD IN MODERN DESK LIGHT DESIGN AND CONSTRUCTION

Both the No. 6300 and 6301 I.L.C. Fluorescent Desk Lights shown on this page are fine examples of the designer's art. Either lamp makes an ideal ornamental piece for any office, living room, library, boudoir, or den. Both have the following features:

1. I.L.C. improved hood, with new I.L.C. parabolic reflector lined with chip-proof white baked enamel. Gives maximum light distribution over entire desk top.
2. Equipped with latest ON-and-OFF switch, conveniently placed in the base for easy, instant lighting.
3. Handy troughs on the front of the base for pens, pencils and paper clips.
4. Sturdy, one-piece, heavy gauge metal stamped base, with noise-proof, scratch-proof felt pad on the bottom.
5. Durable Morocco brown wrinkle finish that fits right into the color scheme of any office or home.

All electrical connections, parts and materials, such as insulation, wire, sockets, switches, etc., approved by Underwriters' Laboratories.

1. New, scientific desk lighting in office or home, for new, better sight.
2. Striking examples of the designer's art. Modern design in every line and detail.
3. Daylight color quality, for true color perception and comparison. Blends perfectly with natural daylight.
4. High efficiency in light production. Twice as much light per watt as an incandescent lamp—more and better light per lighting dollar.
5. Full, even lighting over a wider area. No need to concentrate the attention in a small spotlighted ring.
6. Restful, glareless lighting, for efficient sight, without fatigue.
7. Reading ease, without eye-strain, for better concentration and eye health.
8. Soft light, for comfort and relaxation. Only ¼ the heat of incandescent lighting per footcandle of light.
9. Longer lamp life, for economy and lasting, dependable service.
10. New, better lighting without new wiring cost. Operates at full efficiency from regular 110 volt circuit. Supplied for either 60 cycle A.C. or D.C.

No. 6301

List Price
\$8.95
Less Bulb

No. 6301. Double Post "Moderne" Fluorescent Desk Lamp with the new I.L.C. swivel joint adjustable hood and I.L.C. parabolic reflector mounted on two strong one-piece, tubular supporting columns rigidly set in a heavy one-piece stamped base. 15 inches high. Base 10" x 5½" x 1½". Hood 5½" wide x 19" long. Wired for 18 inch, 15 watt "daylight" fluorescent bulb. 110 volts, 60 cycles, A.C. (For 110 volts, D.C., add \$0.50 to net cost.) For other features of this great I.L.C. Desk Lamp see bottom of opposite page.

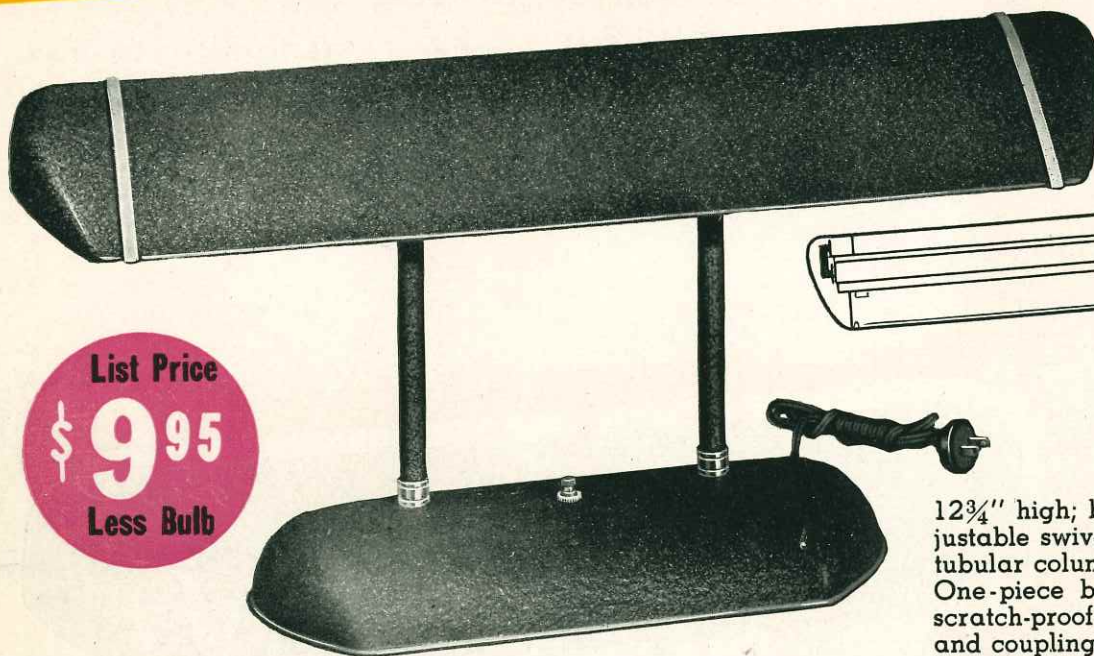

Packed in individual corrugated shipping carton, complete with 6 feet of approved rubber covered cord and plug. Shipping weight 8½ lbs.
